Hypnotherapy [Psychology Today]

April 24th, 2020 - Hypnotherapy is guided hypnosis or a trance-like state of focus and concentration achieved with the help of a clinical hypnotherapist. The trance-like state is similar to being deeply relaxed and the hypnotherapist guides the individual through specific suggestions to achieve desired outcomes. Hypnotherapy can be used for a variety of purposes, including pain management, stress reduction, and behavior modification.
